This is why I wish they had added more of these slots, because I'd gladly have backed at this level if I could get Tremere in.

Just for further clarity on this, that doesn't mean I'm in anyway opposed to new Order writeups. I think they would be cool. They don't even rank close to what I'd want to see out of 1001 Nights, though, so I'm not specifically asking for them. If they make their way in anyhow, I'll enjoy it for what its worth.

I do absolutely agree with @FallenEco though, I doubt the Tremere will be updated to 2e in DE2.

Bummer... 😳 I would be even glad for the Order spłat 2-3 page, not mechanics of Tremere - the idea of souls stealing ORDER is just too cool. Even if we would *not have* mechanics to run those more than NPCs for few next years.

I won't be Developing any era in DE2, and would be sceptical of anyone doing the Tremere rules in one. Especially as all the etas are crossovers. There just isn't enough room.

@Dave Brookshaw, as you are not doing any Dark Eras projects lately, I assume the quickest (and best) place to look for splats write-ups for Panscryptias, Keepers of the Word and Tremere Orders will be T**ome of Pentacle**?

@Second Chances , I know you as backer wants to add your content to Mage expansion of *1001 Nights* - I just think you should mention in your talks with Mage Era part developer that in that time we had 6 Orders in Diamond. I'm worried dev (especially outside of day-to-da Mage line) can 'forget' that this was a case - as shown by **Fallen Eco** post (and similar we seen on forum in last years), it's a bit confusing topic and people from the outside can really forget it. And I mean nothing as 'you need to dedicate 3 pages per Order to get it whole write-up', but that when they will write Era, we did not see mentioning of Mysterium in 800's or that they miss Tremere as Order in Eras text. Just reminder to author, nothing more - so we would have truly coherent Mage 2E timeline as **Dave** envisioned it.

While those three orders might be mentioned in Tome of the Pentacle, the name of the book heavily implies that no, they won't get any details. The Pentacle is specifically the four modern Diamond orders and Free Council so anything else would be beyond the obvious scope of the book.

All three Devs read these threads. I assume they will at least chat with Dave. It's not my job to remind them and my pitch is too long already. If you're that worried about it, I suggest you PM them or post to the comments on Kickstarter.

Will do if we will be confirmed we will finally settled for *Arthurian Britain* and *1001 Nights* for Mage - till this day it's more 'strongly probable' than anything sure. And still not know who will write those - I suppose that Mage parts would be for Matthew Dawkins, as he was interested in **MtAw** before?

For *1001 Nights*...no. Meghan's the one who's writing that one.

You're not developing the Light of the Sun - Europe (1600s) era, the Mage / Deviant crossover, even though you're the developer for both lines? That's surprising.

Are you at least writing large chunks of the era?

Since everyone seems so surprised, if you look at the Kickstarter campaign page, you'll see very clearly, 'Shepherding the writing will be developers Monica Valentinelli, Matthew Dawkins, and Meghan Fitzgerald.' They are the ones who have been talking about all the Dark Eras, making posts alongside Rose the development producer.

They even say which eras they are working on in the introduction video.

Monica - Qing Dynasty & Light of the Sune
Meghan - French Revolution & 1001 Nights
Matt - Great War & Seven Ancient Wonders

Nope! I expect Monica will be in touch at some point to find out what Deviant is about.

Regarding the Tremere, the first ed Tremere section in Left Hand Path was longer than an unexpanded Dark Era; second ed Tremere are more complicated, no one involved has the background to do them, and they wouldn't fit into an era even with an expansion. We're looking at how we can get the Tremere, Mad, and Scelesti rules out, but Dark Eras really isn't the place for it.

Based on your response, I assume Monica is not one of the authors on the upcoming Deviant corebook. She's further not credited on Mage 2e. Monica's also ironically the developer of Hunter, the singular CofD gameline where you have no writing credit.

While I don't question Monica's general talent or dedication, I admit being a little apprehensive that the era will have sufficient depth and content without you or another significant Mage and/or Deviant author at the helm.

The most obvious and simple (but not necessarily best) answer would be a Night Horros book similar to the upcoming Shunned by the Moon.
