Custom Arc Packages and Careers

#1

Thousand Years of Night introduced story arc packages, preset groups of skills that represent a part of an elder Kindred's past to make character creation easier. These packages burn about 30-36 Experiences at once and represent a phase of the elder's Requiem about the length of a mortal's lifespan.

I also wouldn't mind creating smaller packages called **careers** that can range between 5-15 experiences which are more focused and represent the skills acquired by any vampire while acting out their Mask or Dirge.

If you have ideas for packages, please post them and I'll link to them in the main post.
