Inoue Aiko

So we haven't speculated on this in a while: Inoue, shows up everywhere and never seems to be the same thing twice. Human? Mage? Ghoul? Ancient Hunter turned Vampire, maybe turned back into a human? Three giant squirrels with a ring of levitation?

From Dave's comments in the Edo Dark Era thread, he seems to have Integirty, and be somewhat of a mastermind at duping the monsters who think they control him (and he's a ghoul). I'm really looking forward to the Promethean, Changeling, and Hunter takes on Tokyo, just to try and get some more hints. Especially Promethean. What do you think and how have you used him in your game?

In the brief vampire game I ran, Akio was a master of low-end magic, having *several* kinds of tricks up his sleeve.

Also, he was working to grasp the vampiric curses as a nuclear deterrent, and *was succeeding so far*.

That's one of the places you can read about Inoue, but you can also check out the Tokyo setting in Vampire 2E, Werewolf 2E, and Beast: The Primordial. Basically, there's a character named Inoue in each gameline in Tokyo, and it's different each time.

Is he mentioned in WtF 2e? I went looking for him last night but couldn't find any. And did we ever get a preview of Hurt Locker's Tokyo? I could have swore that we did but can't find it.

I thought that too, but he's not there. It refers to the head of the Silver Ladder heading the board of the Hototogisu. I assumed that was the same guy, and was kinda surprised but maybe not. Maybe the SL just think they run the show.

I'm pretty sure David said on the forums that Inoue wasn't the Mage, since the CEO and Head of the Board don't have to be the same person.

I bet this is some kind of scrambled message. Who has the will, the skill and the time to decipher it? :P
